

A presentation for

# Restaurant

# START UP FROM ANTWERP

CEO with restaurant experience. Purpose – see if it's interesting for you

## EVERYTHING YOUR RESTAURANT NEEDS

All-in-one connected system

YOUR BENEFIT: REVENUE GROWTH AND  
REDUCED COSTS

# DELIVERY

Same with more flexibility.

## MealApp or Own Rider

### MealApp Rider

MealApp Rider → Customer

OR

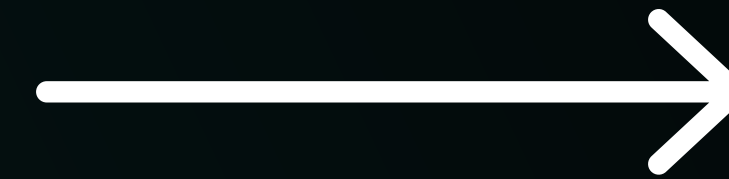

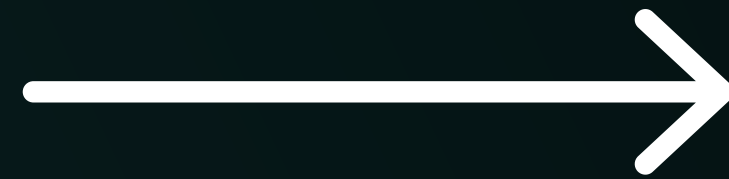

### Own Rider

Own Rider → Customer

More control for the restaurant / costs are transparent / more margin with every order.

# PICK UP

MealApp Pickup - customer orders and pays in advance through app.  
You receive the order automatically, prepare it - customer picks it up  
at selected time.

Customer orders & pays  
via MealApp

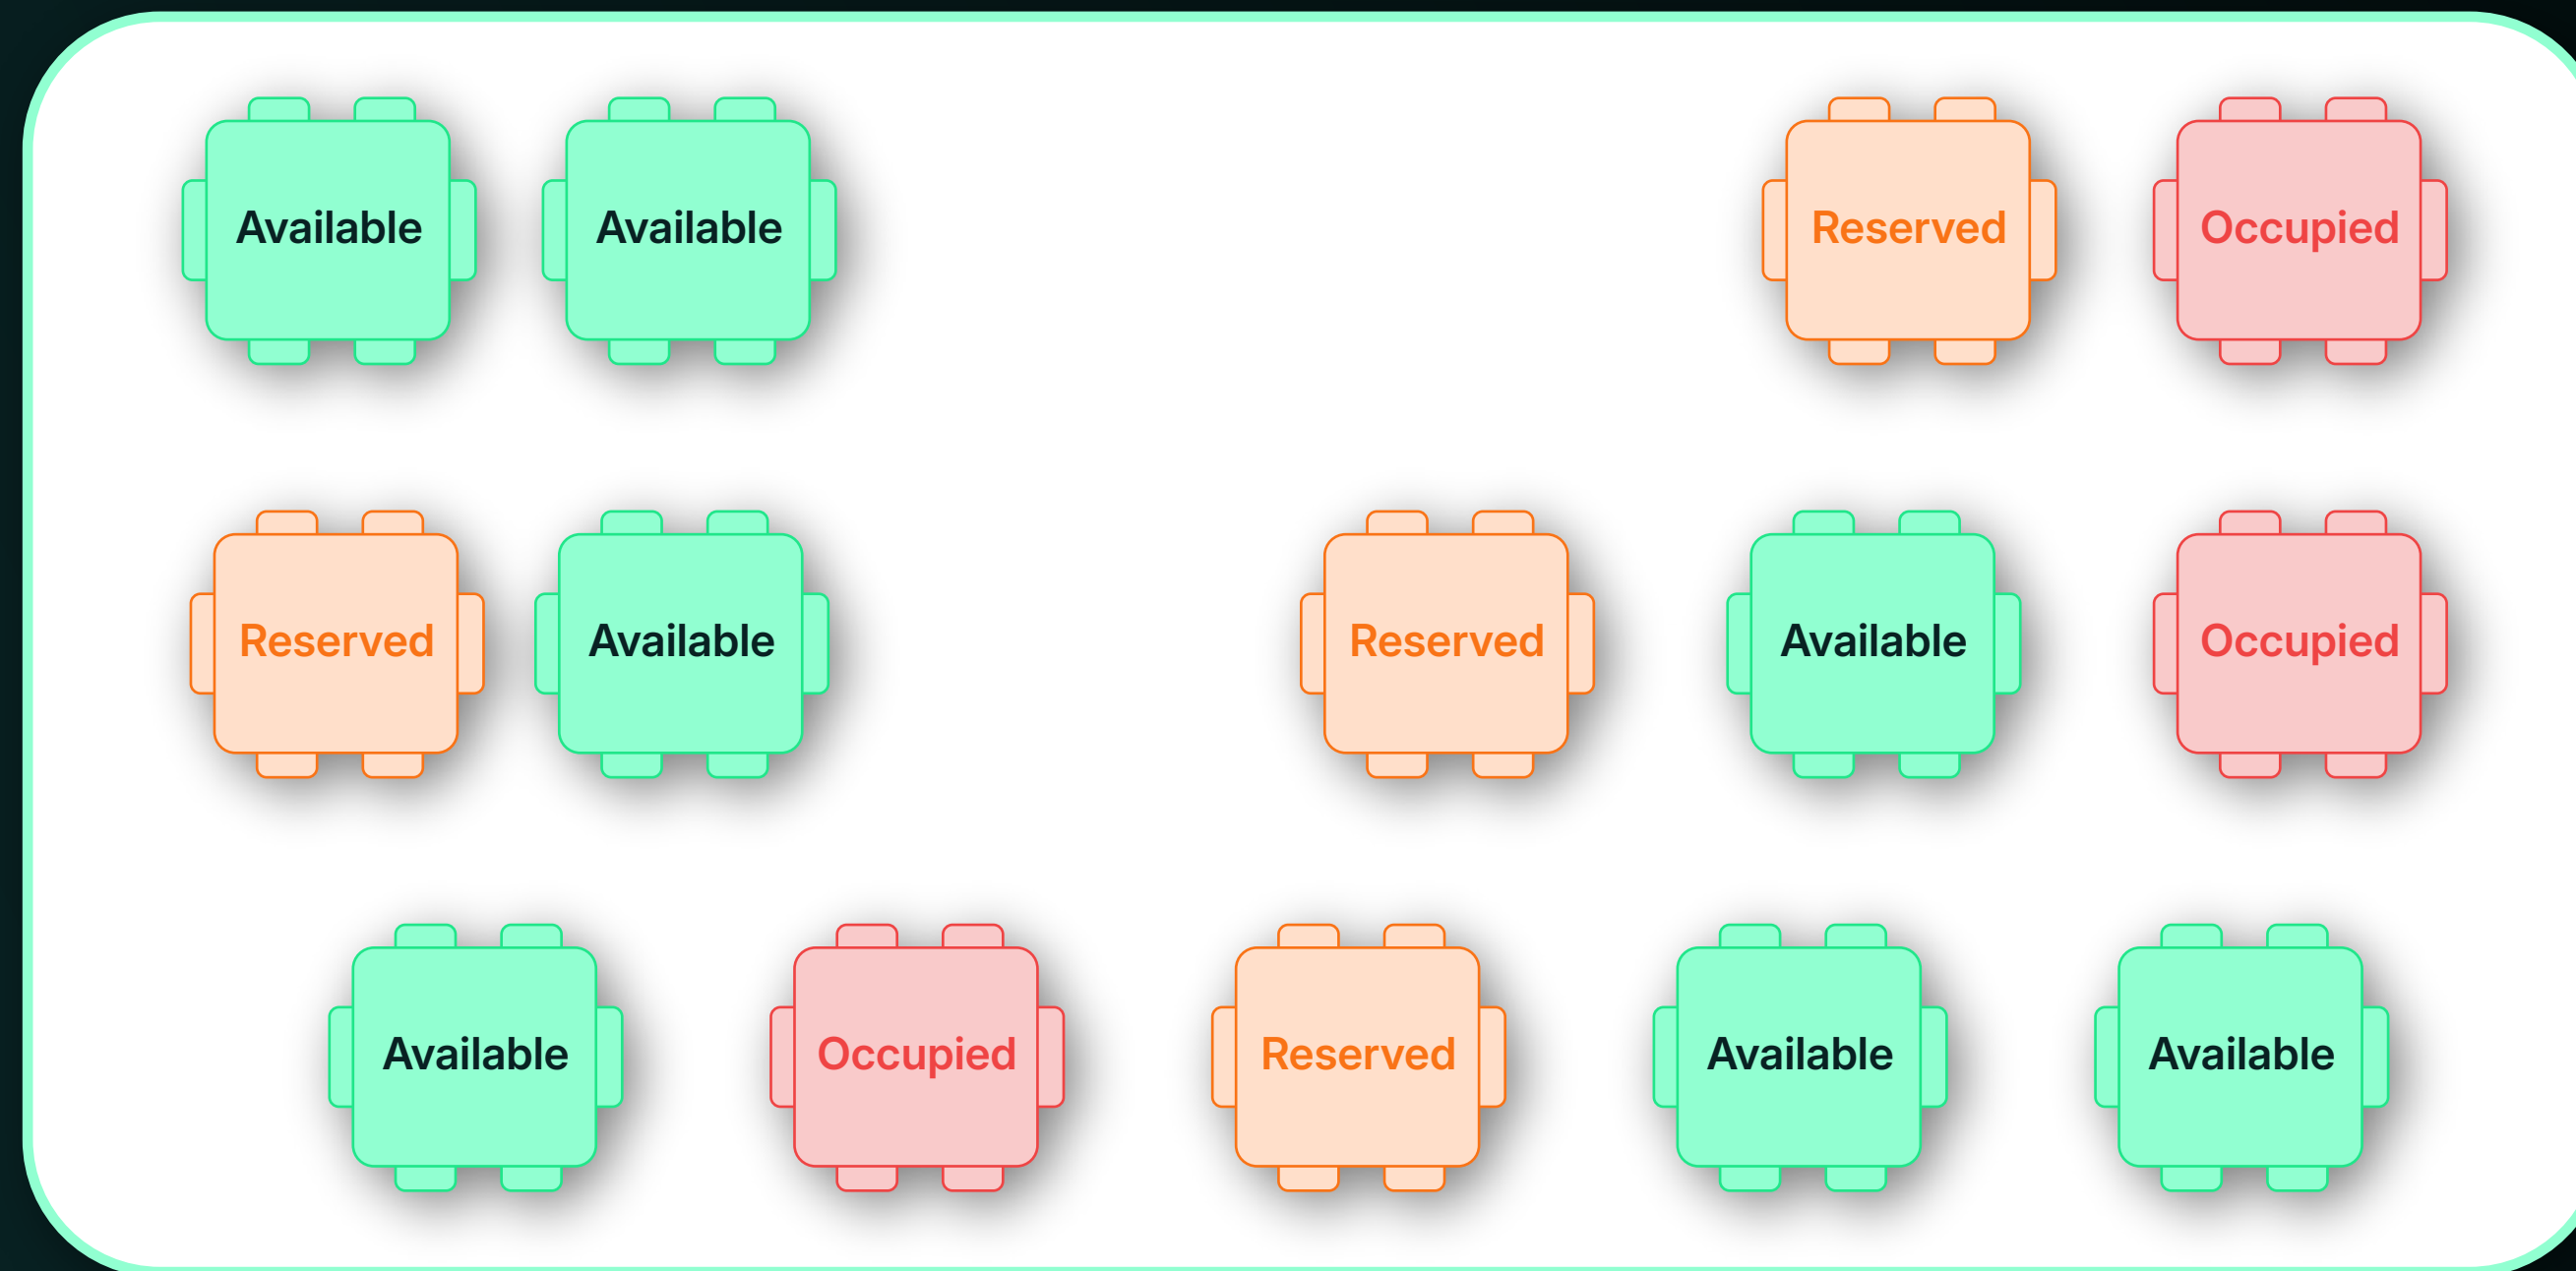

Order received automatically  
& food being prepared

Pickup at  
selected time

No rider, no delivery logistics, and therefore a simple way to generate additional revenue.  
How much time does your staff spend taking and processing those orders?

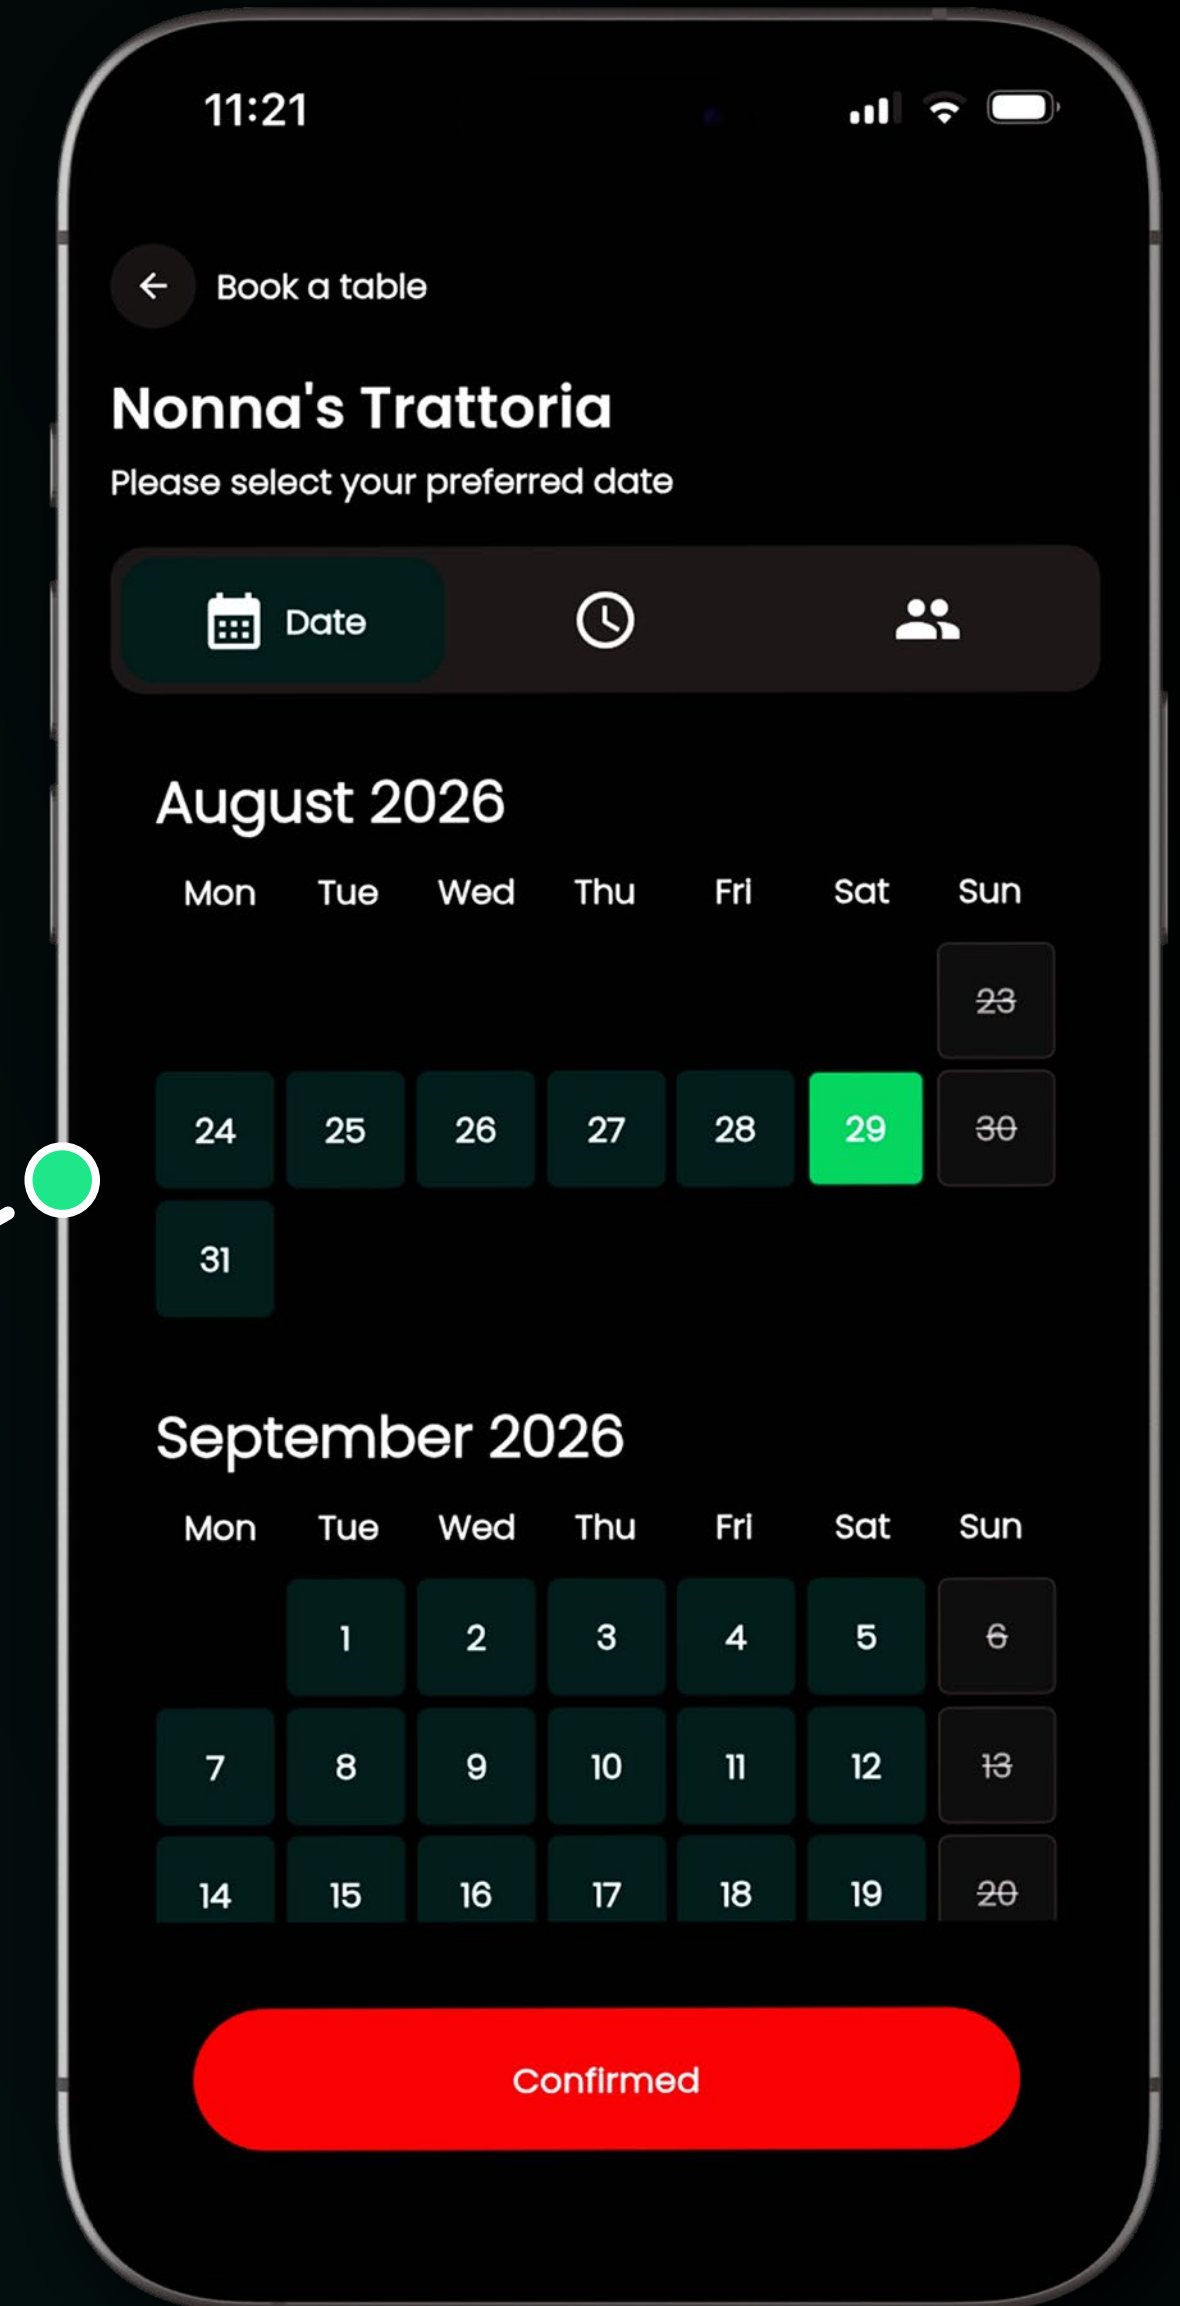

# RESERVATION

Virtual seating plan – BIG ADVANTAGE

Customers can book a table 24/7 directly through app. Every reservation in one system, manage and assign tables automatically + reduce no-shows.

**No commission per reservation or per guest – fixed monthly fee.**

# REAL TIME DASHBOARD

You see your orders, pickup, deliveries, reservations, tables and sales in real time.

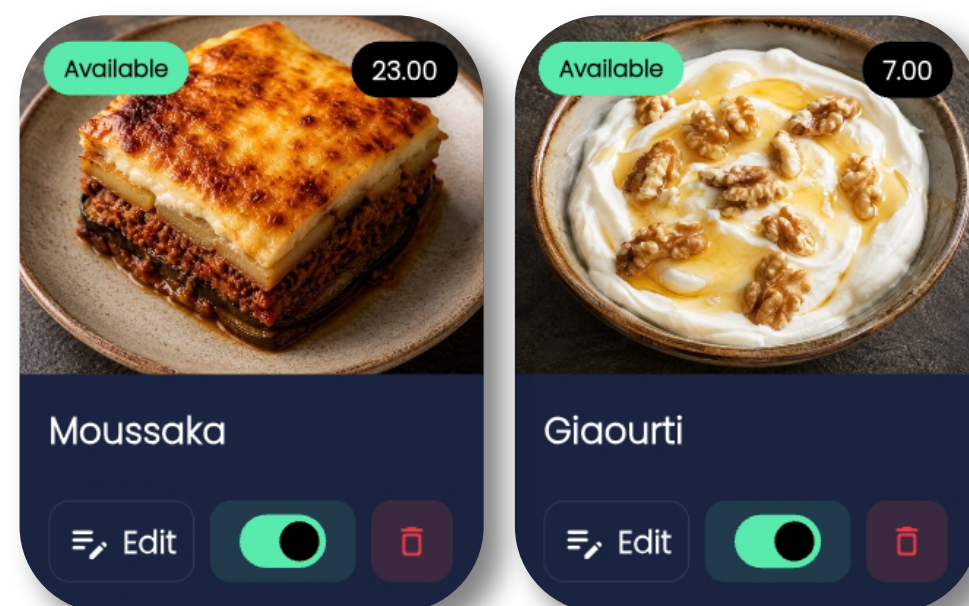

You can immediately see what is happening in your restaurant and use the data to make better decisions.

# EXTRA ADVANTAGES

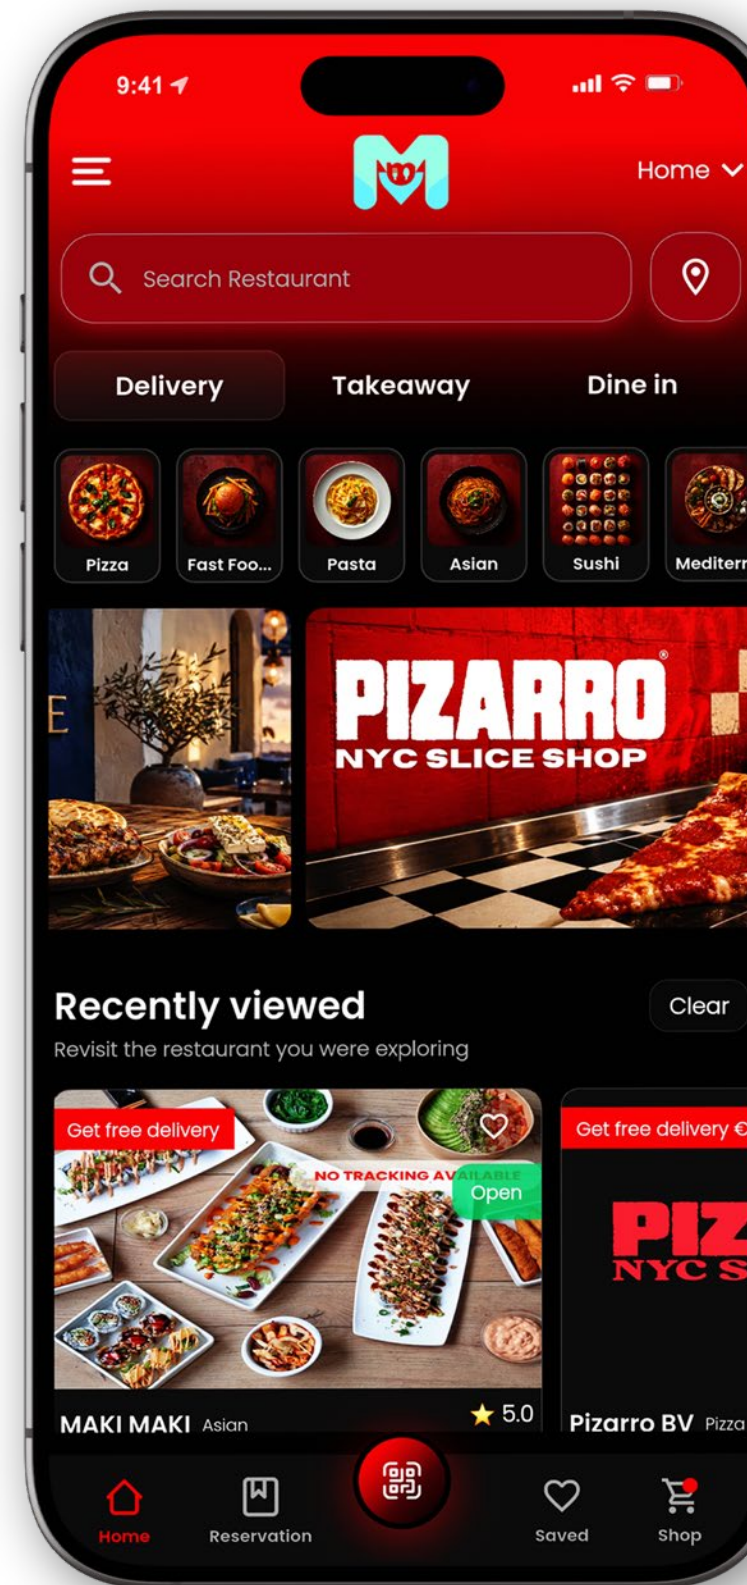

## 01 Widget

- Connect Google My Business
- Real Time Changes (price, menu, hours and many more)

## 02 Marketplace

- Instant User Reach
- Orders and Reservations
- Split Billing Possibility
- Payments
- Lead Generation
- Lower Software Costs

## 03 Dedicated Printer Device
